Professional Summary:

DevOps Engineer with **4+ years of hands-on DevOps experience and 13+ years of overall IT experience**, specializing in **CI/CD pipelines, AWS cloud infrastructure, Docker, and Kubernetes (EKS)**. Experienced in **build and release engineering, Linux administration, and L2 production support**, with a strong QA foundation enabling effective **cross-functional collaboration**. Proven record of:

- **Reducing build failures by 35% through CI/CD pipeline optimization in Jenkins and GitHub Actions**
- **Achieving 99.9% uptime** for 100+ AWS instances
- **Cutting manual deployment effort by 25% via automation**
- **Enhancing deployment success rates from 85% to 98%**

Total Experience

- Overall IT Experience: 13 Years
- DevOps & Cloud Experience: 4 Years | Jun 2020 – Jul 2024 | Hands-on involvement alongside QA role
- Senior Test Engineer Experience: 8 Years | Aug 2011 – May 2020

Technical Skills:

- **DevOps & CI/CD:** Jenkins, GitHub Actions, SonarQube, Nexus, Argo CD
- **Cloud & Operating Systems:** AWS (EC2, S3, IAM, EKS), Linux Administration
- **Build & Dependency Management:** Maven
- **Version Control:** Git, GitHub, GitLab
- **Containers & Orchestration:** Docker, Kubernetes (EKS), Helm (basic)
- **Infrastructure & Automation:** Ansible, Shell Scripting, Terraform (basic)
- **Monitoring & Support:** Prometheus, Grafana, K9s, Incident & Change Management
- **Testing & QA:** Selenium WebDriver (Java), TestNG, Postman, API Testing
- **Databases:** MySQL
- **Core Competencies:** Release Engineering, CI/CD Optimization, Root Cause Analysis, Production Stability, Process Improvement, Cross-Functional Collaboration
- **Soft Skills:** Analytical Thinking, Leadership, Mentoring & Coaching, Team Collaboration, Problem-Solving

Work Experience:

Media.net Software Services Pvt. Ltd., Mumbai, India

Senior Software Tester / DevOps Engineer | Sep 2012 – Jul 2024

DevOps / Cloud Responsibilities | Jun 2020 – Jul 2024

- **Optimized** CI/CD pipelines using Jenkins and GitHub Actions, reducing build failures by 35%
- **Strengthened** deployment reliability across **Dockerized microservices** and Kubernetes (EKS), reducing release rollbacks by 30%
- Refined manual deployment tasks via Shell scripting and Ansible, cutting deployment effort by 25%
- **Maintained** 99.9% infrastructure uptime through proactive monitoring of AWS services and Linux servers
- **Accelerated** incident resolution by 20% through L2 production support and root cause analysis

Projects:

Commerce Operations Management Platform

Role: Senior Software Tester with DevOps Focus

Environment: Docker, Kubernetes, AWS, Terraform (basic), Ansible, Linux

- Built automated pipelines across Dev, QA, and Production environments, reducing deployment errors by 40%.
- Ensured zero critical production outages for 3 Tomcat workloads serving 5000+ users.
- **Aligned** CI/CD releases across 4 environments

Enterprise Commerce Application Suite

Role: Senior Software Tester with DevOps Focus

Environment: Linux, Shell, Git, Maven, Jenkins, Nexus, AWS

- Coordinated CI/CD workflows supporting multi-environment releases and version traceability across **5 major services**.
- Validated artifact integrity and Tomcat deployments, improving **release success rates from 85% to 98%**.
- Streamlined QA-DevOps collaboration, **improving deployment speed by 20%**.

Senior Software Tester Responsibilities | Sep 2012 – May 2020

- **Established** multi-environment CI/CD workflows for 5 services
- Improved release success rates from 85% → 98%
- **Facilitated** QA-DevOps collaboration, improving deployment speed by 20%

Projects:

Customer Acquisition Portal

Role: Senior Software Tester

- Designed 200+ functional and regression test cases
- **Implemented** Selenium automation framework, reducing regression execution time by 35%
- **Led** QA team of 4, lowering production defects by 25%.

Downloadable Extensions Platform

Role: Senior Software Tester

- **Conducted** cross-browser and cross-device testing, increasing browser coverage to 95% of supported platforms
- **Coached** 5 junior testers, boosting team productivity by 20%
- **Managed** backend data validation using MySQL

Innovative Learning Solutions, Mumbai, India | Aug 2011 – Aug 2012

Software Tester

- **Authored** and **executed** 50+ manual test cases for web-based applications
- **Delivered** cross-browser compatibility testing, reducing UI-related defects by 30%
- **Orchestrated** defect resolution cycles with developers, accelerating turnaround by 20%

Key Achievements:

- Reduced deployment time by 30% through CI/CD optimization
- **Detected 100+ code violations pre-production** using SonarQube quality gates
- Standardized multi-environment deployments using Ansible for 10+ services
- Enhanced production stability, reducing critical incidents by 25% through proactive monitoring and RCA

Education:

- BACHELOR OF ENGINEERING – Electronics & Telecommunications
Mumbai University, Mumbai, Maharashtra, India | 2007 - 2010

Certifications

- Professional Scrum Master I | [Scrum.org](https://www.scrum.org/) | Jan 2023
- ISTQB Agile Tester CTFL-AT | [GASQ](https://www.gaso.org/) | ID 926659 | Feb 2023
- ISTQB Foundation Level | [GASQ](https://www.gaso.org/) | ID 42324 | Apr 2017
